PROJECT

SITE SELECTION
STUDY

The Conseil retained PPAL to identify prospective school sites in the Kanata- Stittsville area as well as the south Nepean area. The exercise resulted in the preparation of a comprehensive map and report identifying various sites capable of accommodating the school board's area requirements for sites that could be developed within a prescribed time frame. PPAL then assisted the school board in its negotiations with the affected landowners in order to secure two of the recommended sites. The sites were then acquired by the client and today they are occupied by École élémentaire Jean Robert Gauthier in Barrhaven and École élémentaire Jean-Paul II in Stittsville.
